

The Grickle Grass Maze

Help the Lorax follow the maze to the end and find energy-saving tips at every bend.

Unplug phone & game chargers when finished charging.

Turn off lights & other electronics when you leave the room.

Products with the ENERGY STAR use less energy.

Don't stand with the door open.

"Save Energy!"

Spread the word about saving energy.

The Lorax speaks for the trees.
And though you can do as you please,
Saving the planet may be the best plan.
With these super-smart tips
you certainly can.

So get started right now for savings today,
And a nice pat on the back from the EPA.

You're on the right track,

Don't slow down, we plead.

Just take that first step.

Help the Lorax succeed!

The LORAX Needs You!

Help him save energy
& save the planet!

Join Team ENERGY STAR® at energystar.gov/team.
Brought to you by the U.S. Environmental Protection Agency (EPA).

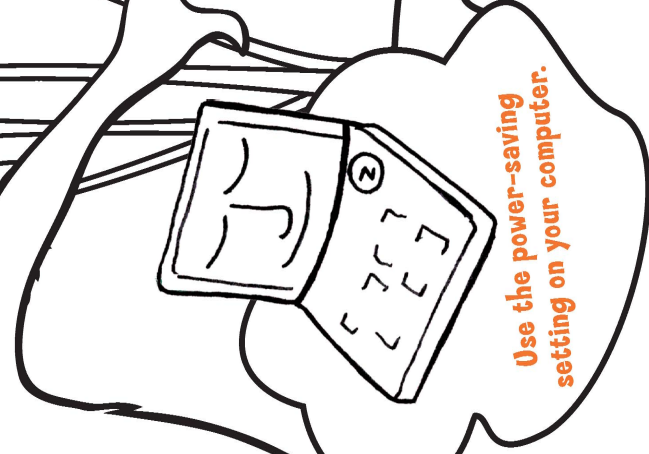

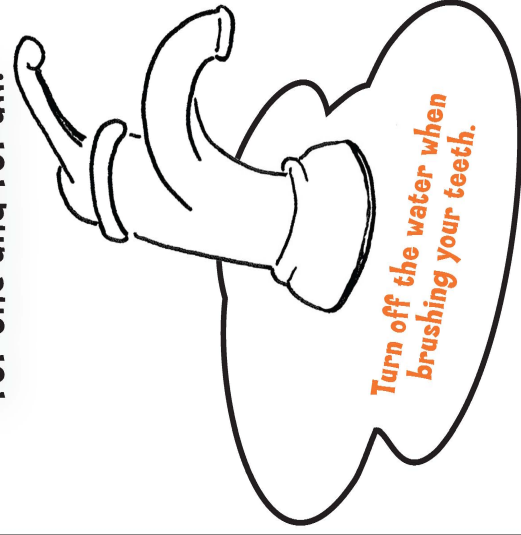

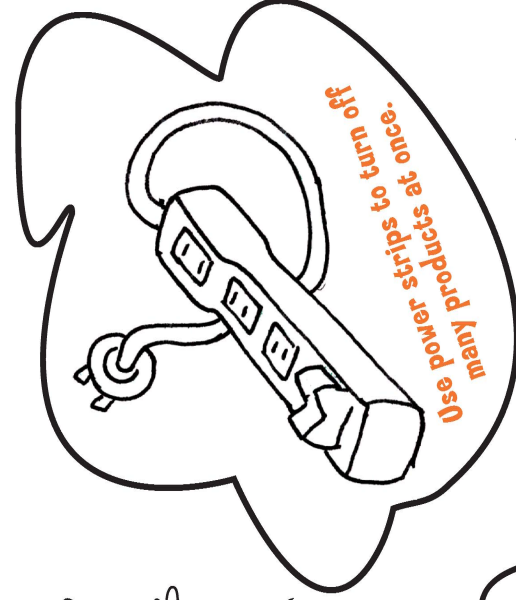

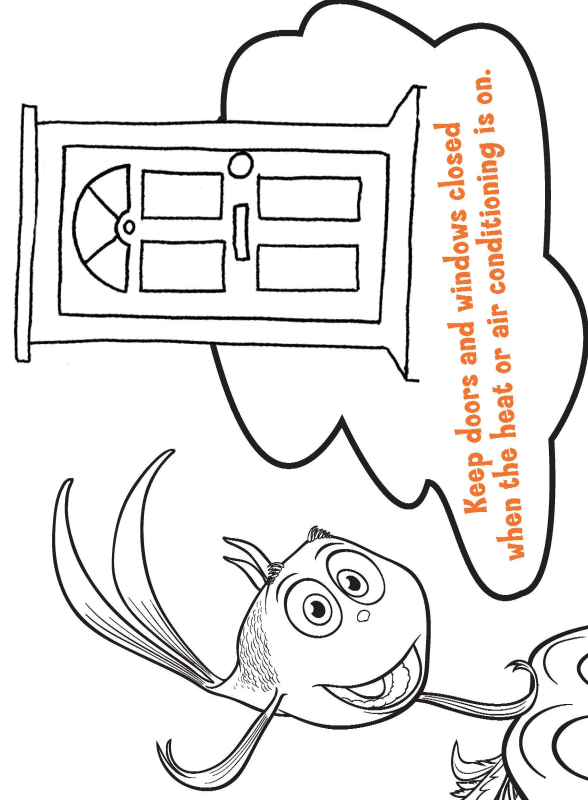

The Lorax is here,
but in black and white.
He needs all your colors
to set him just right.
Grab crayons or markers,
pencils or paints,

And fill in his fur,
before he Lor-faints.
And notice the tips
scattered here and about.

They'll always save energy,
both inside and out.

The world will love you,
the trees will grow tall.

You'll be protecting the climate,
for one and for all.

Using less energy is a great way for you to
help prevent climate change.
