ENERGY STAR for Commercial Buildings and Industrial Plants

Congratulations to 2022 ENERGY STAR Award Winners

The U.S. Environmental Protection Agency announced today the winners of its 2022 ENERGY STAR Awards. These leading organizations are protecting public health and tackling climate change through superior achievements in energy efficiency. Each has made outstanding contributions to protecting the environment through energy-efficient buildings, services, and strategies. Congratulations and thank you for your dedication!

ENERGY STAR award winners are selected from a network of thousands of ENERGY STAR partners and include Fortune 500 companies, school districts, retailers, manufacturers, utilities, commercial building owners and operators, and others across the United States. Their efforts are essential to fighting the climate crisis and protecting public health.
